

Ventura Countywide Storm Water NPDES Permit – To help insure that our storm drain system is not polluting our creeks, the city is required under the Federal Clean Water Act to comply with a National Pollutant Discharge Elimination System (NPDES) permit for our storm drain system issued by the California Regional Water Quality Control Board – Los Angeles Region. The Ventura Countywide Storm Water Quality Management Program, of which City of Santa Paula is a member, was established to comply with the NPDES permit. To view a copy of the Ventura County Storm Water NPDES Permit visit: Ventura Countywide Storm Water Quality Management Program (www.vcstormwater.org).
