Construction and Demolition (C&D) Debris Reuse and Recycling Program

What is the Construction and Demolition Debris Reuse and Recycling Program?

State law requires the City to divert landfill-bound solid waste material through the use of waste prevention, recycling and re-use. To meet this law, City of Santa Paula Municipal Code Section 50.140 requires permit applicants working on construction and/or demolition projects within City limits to practice waste prevention; re-use, recycle or salvage; and, least preferred, landfilling solid wastes.

Thresholds for Reporting –

The thresholds for planning and reporting job site waste diversion are:

- Commercial and residential additions or alterations that require a building permit;
- Demolition of any structure requiring a permit, regardless of cost or value.

Reporting Forms –

For all small projects within the City limits meeting or exceeding the above listed thresholds, submission of the reporting Forms required:

Pre Construction Waste Reduction/Recycling Plan (WRRP)

- ✓ Types and estimated quantities of projected waste;

Post Construction Waste Reduction/Recycling Summary Report (WRRS)

- ✓ Submitted within 5 days of the end of the project or prior to occupancy;
- ✓ Actual quantities of waste generated;
- ✓ Original weight tickets or receipts to verify solid waste material diversion.

Landfill Diversion Requirement –

City of Santa Paula Municipal Code Section 50.141 requires a minimum of 50% (by weight) diversion, through recycling, reusing or salvaging solid waste materials generated at all City project sites meeting or exceeding the reporting thresholds shown on the other side of this flier.

Authorized Haulers –

The following companies are the only haulers maintaining either residential or commercial franchise service agreements with the City of Santa Paula:

- City of Santa Paula (805) 933-4212 ext. 308
- Consolidated Disposal Service (805) 648-1056
- Santa Clara Valley Disposal (805) 647-1414

NOTE: Completed WRRS Reports shall be submitted to the City of Santa Paula Community Development Counter 5 days prior to Final Inspection and issuance of Certificate of Occupancy or Temporary Certificate of Occupancy. If you have questions, please call: 805-933-4212.
